WILCOX'S IMPROVED STEAM WATER LIFTER

IS A STEAM PUMP,

WITHOUT ENGINE, PISTON OR PLUNGER.

Using Steam direct from the Boiler, without the intervention of any other machinery. It has won FOUR FIRST PREMIUMS at California State Fairs, within the last five years.

It is used on the Central and Western Pacific Railroads, from Oakland to Ogden.

It is used for Mining in Shafts, in Tunnels and Placer Diggings.

It is used for Water Works, for Irrigation and Watering Stock, for House and Farm use, for Sprinkling Streets, Draining Ponds, and Pumping for Sinking Wells.

Several of the Lifters can be seen at work near Woodland.

Merits Worthy of Consideration:

CHEAPNESS.—Its cost is less than one-half that of any other Steam Pump of like capacity.

ECONOMY OF STEAM.—It uses the exhaust steam alone for its suction, and the expansive power is applied direct, instead of wasting a large percentage on the friction of pistons and other machinery.

ITS ADAPTABILITY FOR DEEP WELLS, SHAFTS AND TUNNELS.—Will work well in Wells and Shafts from 100 to 200 feet in depth, and in Tunnels from 300 to 1000 feet in length, whether straight or angular. There is neither steam nor smoke escaping in the shaft or tunnel.

NOT DERANGED BY MUDDY WATER.—Having neither piston nor packing, the common derangement from grit is not incurred. Hence its great durability.

ANY PERSON CAN RUN IT.—It being so simple in construction and action, any person of ordinary intelligence can run it with safety.

They are made of any capacity, from 1,000 gallons to 100,000 gallons per hour.

For $75 I will sell a Water Lifter of 1,000 gallons per hour capacity; and for $85 I will furnish a boiler, with all necessary attachments, that will be sufficient to raise 1000 gallons 50 feet in one hour. All other sizes correspondingly low.

Parties can see them in operation at my shop, or one at the Presidio, San Francisco, daily driving 3000 gallons per hour up a slope 2,500 feet, with a perpendicular raise of 100 feet.

Will be printed and sold to subscribers at $2 50 per copy. The map will be on a large scale—about 4 by 4½ feet. Office in the Court House. Surveys made in any part of the county. ja28-tf

THE DOMESTIC Sewing Machine!

A New Favorite in California.

The Domestic Sewing Machine has just been introduced into this State, and is now offered to the public. It makes the Shuttle or Lock Stitch, alike on both sides, uses a straight needle, and its range of work is from the heaviest to the most delicate fabric, sewing every kind perfectly. It has a self-adjusting tension, which requires no alteration in changing the thread, or in sewing different thicknesses. In simplicity and durability it is unequaled. One great advantage in this machine is, that it will sew over thick seams without difficulty.

The Domestic Stands on Its Merits Alone,

Which have secured it large sales wherever it has been introduced. It combines beauty of appearance with easy, quiet action and perfect work.

THE DOMESTIC SEWING MACHINE is furnished in various styles, the prices ranging about with those of other first class machines.

Lake Yellowstone and its Surroundings.

Lake Yellowstone is a lonely, but lovely inland sea, surrounded by "forests primeval," and nestled in the bosom of the Rocky Mountains. Some trappers have insisted that its waters ran both to the Atlantic and the Pacific, but such is not the case. The summit of the main chain, however, approaches within half a mile of its south shore, and in places the divide is very little above the lake. Its shape resembles the broad hand of an honest German, who has had his forefinger and the two adjoining shot off at the second joint, while fighting for glory and Emperor William. The palm of the hand represents the main body, or north part of the lake. The fingers and thumb, spread to their utmost extent—the thumb and little finger being much the longest—represent inlets indenting the south shore, and stretching inland, as if to wash away the Rocky Mountains. Between these inlets, project high, rocky promontories, covered with dense timber. The largest stream flown into the lake at its upper end, or the extreme southeast corner. This stream is really the Yellowstone River, which, for a distance of thirty miles, has an average width of over fifteen miles. This enlargement constitutes the lake, which, after being augmented by several smaller streams, narrows down to the width of an eighth of a mile, and flows northward toward the great falls.

The mood of the lake is ever changing; the character of its shore is ever varying. At one moment, it is placid and glassy as a calm Summer's sea; at the next, "it breaks into dimples, and laughs in the sun." Half an hour later, beneath a stormy sky, its waters may be broken and lashed into an angry and dangerous sea, like the short, choppy waves which rise in storms on Lake Erie and Lake Michigan. Where we first saw it, it had a glittering beach of gray and rock-crystal sand, but as we continued around it, we found rocky and muddy shores, gravel beaches—on which several varieties of chalcedony were profusely scattered—and hot springs in abundance. Near the south-east end of the lake is the highest peak in the vicinity. It is steep, rugged and barren, and from the lake-shore appears to taper to a point. On the south side is a precipice, nearly a thousand feet high. Two of the party ascended it. It took them all of one day to make the trip and return. About two-thirds of the way up they were obliged to leave their horses, and continue the ascent on foot. The altitude of the mountain, as obtained by observations with the barometer and thermometer, was 11,163 feet. Much snow was found before reaching the summit. A fine view of the surrounding country, and a good idea of the shape of the lake, were obtained. Immense steam-jets were seen to the south; but as our time was becoming somewhat limited, we did not remain to visit them. Several barometrical calculations were made; and we determined the height of the lake to be 8,300 feet. After passing by a fine cascade—which we stopped but a short time to examine—we forded the river, and camped about noon in the midst of the most wonderful geysers yet discovered in any country. The basin in which they were situated was over two miles long, and about a mile wide. Is was nearly destitute of vegetation, but there were a few clumps of trees scattered through it, and in one place we found grass enough for our horses. The basin was chiefly on the west side of the river, but there was a narrow strip, with an average width of three hundred yards, on the east side, which was literally alive with geysers and steam-jets. We remained two days in this wonderful basin. The most prominent geysers which we saw in operation we named as follows: "Old Faithful," which was farthest up the river on the western bank; "The Castle," which was a third of a mile below "Old Faithful;" "The Giant," which was a half-mile below "The Castle;" "The Grotto," a short distance below "The Giant;" then crossing the river, lowest down was the "Fantail," and much higher up, nearly opposite "Old Faithful," were "The Giantess," and also the "Beehive."

All around the geysers the ground was covered with incrustations and subsilica; and immediately about the vent of most of them the incrustations rose several feet above the surrounding level, assuming grotesque and fanciful shapes.

One of the most remarkable geysers was "The Giantess." For yards around the ground rose gradually to its crater, but immediately about it was no formation rising above the surface, as was the case with all the other geysers which we saw in active operation. When quiet, it was a clear, beautiful pool, caught in a subsilica urn, or vase, with a hollow, bottomless stem, through which the steam came bubbling, just like the effervescence of champagne from the bottom of a long, hollow-necked glass. The mouth of the vase, represented by the surface, was twenty feet by thirty; and the neck, fifty feet below, was fifteen feet by ten. The water, at times, retired to the level of the neck, or vent, and at other times rose nearly to the surface. When in action, "The Giantess" became a fountain with five jets, shooting the spray to a height of two hundred feet. At the surface the largest jet was about two feet in diameter, and it kept in solid column for more than a hundred and fifty feet before breaking into drops and spray. It bursts forth just before sunset, and the last rays of light gave prismatic tints to the glistening drops, when, having reached their utmost altitude, they trembled at their coming fall. The clouds of steam, which in this, as in all other instances, accompanied the boiling water, became a golden fleece lit up by wreaths of rainbows. Though inferior to "The Giant" in immensity of volume, and perhaps in grandeur, "The Giantess" was by far the most beautiful sight we saw in the geyser basin.—*From Yellowstone Expedition, in the June Overland Monthly.*

THE San Francisco new City Hall job seems to have been a money making business for somebody. Supervisor Badlam has made the discovery that while the Commissioners have expended $80,000, only $24,000 of the amount is accounted for. It ought to be made a felony for stealing over half of the people's money. Nipping $56,000 out of $80,000 is overdoing the thing.

Ohio Resolutions.

The following is an abstract of the resolutions adopted by the Democratic State Convention of Ohio, assembled to nominate a Governor and other State officers. They were introduced by General Morgan, member of Congress, and are in substance the Vallandigham resolutions, to which reference has been heretofore made:

First—Denouncing the extraordinary means by which they were brought about, we recognize as accomplished facts the three amendments in fact to the Constitution, recently declared adopted; the same are no longer political issues before the country.

Second—We demand the rule of strict construction, as proclaimed by the Democratic fathers, accepted by the statesmen of all parties previous to the war, and embodied in the tenth amendment to the Constitution, to be rigorously applied now to the Constitution as it is, including the three recent amedments above referred to, and insist that the amendments shall not be held to have in any respect altered or modified the original theory of the character of the Federal Government; but only to have the powers delegated to it, and to that extent, and no more, to have abridged the reserved rights of the States, and, as thus construed, the Democratic party pledges itself to the faithful absolute execution and enforcement of the Constitution as it now is, so as to secure equal rights to all persons under it, without distinction of race, color or condition.

The third resolution declares that the absolute equality of every State in the Union is a fundamental principle of the Federal Government.

The fourth declares opposition to all attempts at centralization of the General Government, and adheres to the principle of maintaining perfect independence between the co-ordinate departments of the Government.

The fifth repudiates the doctrine that any party or any legislative policy of any party is a finality, and declares the right of the people to alter or repeal them.

The sixth demands of Congress as eminently appropriate, legislation on the Fourteenth Amendment and Federal amnesty.

The seventh denounces the so-called Bayonet Bill and the later Kuklux Bill as unconstitutional and tending to establish military despotism in place of free Government.

The eighth opposes the San Domingo annexation.

The ninth for a strict revenue tariff.

The tenth condemns the policy of the Administration in regard to land subsidies, its financial schemes and national banking system.

The eleventh favors revenue reform.

The twelfth declares that the bondholder should be paid only in the same currency he loaned the Government, whether it be gold or currency; that currency should be made convertible into three per cent, bonds at the option of holders, and as the true method of returning to specie payments; custom duties should be payable in legal tender, whether paper or gold.

The thirteenth is an appeal to the people, regardless of past party affiliations to rally under the banner of reform, and aid in relieving the people from abuses which wrong and oppress all but the wrong-doer.

THE New York *Tribune* sent a corps of correspondents to the Southern States to see for themselves the condition of affairs there. In its issue of the 17th of May, it says:

Our correspondents have now been so long in the disturbed districts of the South, that we can form from their letters a distinct idea of the state of society in that unfortunate part of the Union. It is a melancholy picture that they draw for us. The most intelligent, the influential, the educated, the really useful men of the South, deprived of all political power, have come to look upon themselves as the outraged subjects of a despotic conquerer. Taxed and swindled by a horde of rascally foreign adventurers, and by the ignorant class, which only yesterday hoed the fields and served in the kitchen, they care nothing for politics except to throw off the oppressive yoke; they have no interest in national affairs; they would class themselves with either party, provided their rulers were only of the other. The refuse of Northern cities, who went Southward after the war, out-at-elbows and destitute of character and education, now roll in splendid carriages, drink rare wines, glitter with diamonds as big as Fisk's, and steal taxes as fast as a New York Street Commission. It is no wonder that the impoverished planter growing poorer and poorer every day, the ex-Confederate officer who fought so bravely for a cause in which he honestly believed, the professional men, accustomed all their lives to hold office and lead the public sentiment of their communities, look on such things with rancorous hearts. They might submit to be ruled by soldiers who had beaten them in battle; but here they are plundered by suttlers and camp-followers.

GENERAL BIDWELL'S RESIDENCE.—A member of the Presbytery, and guest of General Biwell during its session in Chico, writing to the *Occident*, thus describes the beauty of the General's home:

When I stood on the lofty tower of General Bidwell's spacious and Beautiful mansion, I could but think that, outside of heaven, scarcely could a more lovely scene break upon the view. It was just at the time when Spring had unrolled her richest and most beautiful robes, and spread them over the bosom of the earth. The forest had just unrolled her leafy banners to the laughing breeze. The flowers were all painted in gorgeous beauty. And a bright sparkling rivulet went singing and dancing on its joyous way, amid the shady bowers around the mansion. And directly in front, not fifty yards distant, as you look down from the tower, you observe a picture of beauty which would lead you to think that the arch of the rainbow had dropped out of the sky and fallen upon that spot. Nowhere but in California could flowers be found of such sparkling brilliance that human art could weave them into a rainbow of surpassing beauty. In addition to all of this, such a broad expanse spreads out over the vast plains, to the blue mountains in the far distance, that cold must be the heart and unappreciative the intellect which is not moved into enthusiasm by such a scene of grandeur and beauty.

Kentucky Democratic Platform.

The Kentucky Democratic State Convention promulgated the following platform:

Whereas, The Democratic party of Kentucky in Convention assembled, re-affirming the principles announced by the Conventions held since the war, do now resolve:

1st. That wise statesmanship and true patriotism require universal and unqualified amnesty.

2d. That the industries of the country demand the abolition of the present mode of raising the revenues, by which portions of the republic are oppressed and robbed to enrich monopolies and certain sections, and the speedy adoption of a system by which the burdens of taxation will be equally and justly distributed, and the taxes actually paid may reach the treasury.

3d. That the preservation of liberty is possible only through the States, and we protest against every act by which States are deprived of their just and constitutional powers and State tribunals ousted out of their proper and necessary jurisdiction, and we are ready to join in all lawful and just measures to reverse the tyrannical acts of the party in power whereby it is sought to strip the States of all rights and concentrate all the power of government in a great centralized despotism.

4th. We indorse the address recently made by the Democratic members of Congress, and unite in condemning all acts by which unconstitutional and despotic powers are conferred upon the President, by which, with the use of the army and navy, the suspension of the writ of habeas corpus, the power to declare martial law, call out the militia, and invade the States without the request of their executives or legislatures, and other undefined means, he can destroy the freedom of elections, the independence of the judiciary and the sovereignty of the States.

5th. Kentucky is unalterably opposed to any form of lawlessness, whether committed under the cover of unconstitutional enactments or organized bands, and we pledge ourselves as occasion may arise to use any legal means to prevent the one and have enacted such laws as experience may demonstrate to be necessary to put down the other and furnish protection of life, liberty and property under the laws enacted by our own Legislature and administered by our own courts.

SCHURZ AND BLAIR.—Citizens of Missouri have cause to congratulate themselves upon the able manner in which their State is represented in the Federal Senate. Indeed, we may say that it is more ably represented than any other State in the Union, and is making its weight and power felt in the vigorous attacks now being made on the Administration. Senator Schurz leads the attack, and leads it brilliantly and gallantly, in opposition to the President's San Domingo policy, while Senator Blair is bolder and not less spirited in his exposures of the reconstruction acts of Congress. The one is a Radical and the other a Democrat, and yet they have no difficulty in finding a common ground upon which they can unite for the purpose of attacking a common enemy—the President of the United States. But not in their general political sentiments are the two Senators more unlike than in their style of argument and manner of speaking. Senator Schurz is a German by birth, a philosopher in temperament, a diplomatist by education, graceful and fluent in debate, self-possessed, coldly logical, without passion, and almost without enthusiasm, polished in diction, epigrammatic in point, and delivering his blows as coolly and in as deadly a manner as a swordsman sends his rapier home. Senator Blair, on the other hand, is a Western man by birth and education, a politician of the Jackson school, bold by nature and rash on calculation, impetuous and at the same time cool, a natural leader and controller of men, hesitating in delivery but strong and logical in matter, and always in the midst of the melee, he delivers his blows with the strength and accuracy and skill of a trained man-at-arms. Both are admirable in their way, and both, as we said, doing good service to their State and country.—*Warrenton (Mo.) Banner.*

WHAT PROPER CULTIVATION WILL DO.—There need never be a failure of crops in California. It is the shiftless mode of farming that is the cause of failure. Farmers are not satisfied at putting in a decent number of acres, and cultivating what they do put in decently. They choose, rather, to scratch over a large territory and trust to luck and a flood for crops. We say again, that with proper cultivation there never need be a failure of crops in this State. As an illustration of the truth of what we assert, we call attention to a small field of barley in the outskirts of Oakland, the property of D. P. Barstow, Esq. One acre was plowed a year ago, and this Spring the same acre together with an adjoining acre was plowed at the same time, and sown to barley. The grain on the acre which was summer fallowed is now breast high to a tall man, has a healthy, luxuriant dark-green look, and promises abundance. The acre adjoining is about six inches high, has a sickly yellow look, and promises a very small crop of poor hay. One would hardly believe there could be such a difference. Don't blame Providence and the weather for your failures, for in nine cases out of ten the fault lies at your own door.—*Masonic Mirror.*

ENORMOUS SHIPMENT OF SILVER.—The London *Standard*, of a late date, says: "On Sunday, March 15th, there arrived in the Mersey one of the largest importations of silver that has ever taken place in Liverpool. The Guion Company's steamer "Wisconsin," Captain Williams, which arrived that day from New York, had on board the enormous quantity of sixty-five tons and five hundred cwt. of silver coins, principally Spanish and Mexican dollars, a large amount of which is intended for this country, and the remainder for different parts of the continent. As soon as the "Wisconsin" was secured to her moorings in dock, the work of getting the specie boxes ashore was commenced, and in a short time safely completed. Wagons were in readiness, and the specie was conveyed to the London and Northwestern railway station, where it was placed in fourteen closed railway vans, and dispatched to London by an early train on Monday morning.

A Young Lady Killed by Her Lover.

Yesterday morning, says the Marysville *Appeal* of June 2d, the little town of Cherokee, twelve miles from Oroville, was thrown into a state of intense excitement by the report that an estimable young lady had been murdered by an Australian as she was returning to her home, after a social party given at Upper Cherokee, in honor of the marriage of Joseph Falls. This was about 4 o'clock in the morning. The deceased, Miss Susie McDaniels, was accompanied by a Mr. Wells and a lady. It appears that the murderer, called by some an Italian, by others Portuguese Joe, had been paying attention to the young lady for two years past, though she tried to discourage his suit. He had told her that he would kill her if she did not consent to marry him, but it seems she regarded his threats rather lightly. From all that we can learn regarding the unfortunate affair, this man, Portuguese Joe, as we will call him, came up behind the ladies and their escort, seized Miss McDaniels by the head, and bending it backward plunged a knife in her throat and drew it downward, inflicting a horrible wound, laying the throat open the whole length, and even cutting her bosom. The attack was so sudden, so unexpected, that her escort, Mr. Wells, was taken completely by surprise, and knew not what was transpiring until the life blood of the victim showed him the horrid nature of the assault. As the murderer released his hold of the victim, Mr. Wells shot at, but missed him, and before he could fire again the villain turned a corner and escaped. Such, in brief, is a condensed account of the affair, taken from the many rumors flying about. Miss McDaniels was about eighteen years of age, an estimable young lady and a general favorite. In one dispatch to the *Appeal* her name is given as Susie, in another as Lizzie. Her mother is now on a visit to New York, and the melancholy news will fall doubly severe on her, who left her daughter a short time since in the full vigor of youthful health. The community has been thrown into a terrible state of excitement by this dastardly act, and the whole populace have united in hunting down the wretch. Parties are scouring the surrounding country in search of the murderer, and it seems impossible for him to escape. If taken it is probable that the Courts will not be troubled with a trial of his case. Judge Lynch will preside, and a stout rope and short shrift will be given the murderer of Miss McDaniels. It rarely falls to the lot of the journalist to record a murder so unprovoked, so atrocious and thrilling in its details. A young and lovely woman, with all the glories of life opening before her, stricken down by the hand of one who professed unbounded love for her, who would have made her his wife. The fiendish passion exhibited by the assassin is almost beyond credence. It seems hard to believe that a man could thus murder the object of his love, and yet we are compelled to believe that such cases occur, though, thank God, they are rare.

FIFTEEN MILLION DOLLARS SAVED BY STRATAGEM.—The Versailles government secured the funds in the public offices in Paris by an ingenuos stratagem. These funds which amounted to $15,000,000, in specie, bonds and bank bills, were placed in a wagon used in conveying bread and potatoes from the charity hospital to the alms house at Issy. The evening before attempting to pass this vehicle through the Issy gate, a similar one was sent by the hospital manager by way of trial, and to disarm suspicion. The guard allowed it to pass, while at the same time, the driver secured a pass for the next day, written in the usual unofficial style of the commune: "Open the gate, even if there are orders to keep it closed." Next day the wagon containing the treasure, hidden under sacks of potatoes and loaves of bread, arrived at the same gate, and was stopped, despite the written order. The guard who gave the pass was away, and his successor would not respect it. In virtue of his right of inspection, he proceeded to open the door of the wagon, and having overturned some of the sacks was about to remove those which covered the treasure, when a lieutenant who commanded the post, arrived, and called out: "I know all about the cart; let it pass." The guard let go the sacks, closed the door, and the vehicle passed out. In an hour and a half later, the $15,000,000 was safe in Versailles. The same evening the commune learned all, and proclaimed that they were robbed. They sent orders to Issay to arrest the manager of the hospital, but he had followed the millions which he had helped to secure.

THE FORCE BILL FROM A RADICAL STANDPOINT.—The more respectable of the Radical papers are unsparing in their condemnation of the late act of Congress, known as the Ku-Klux Act. Among other high Radical authorities, the Boston *Advertiser* takes decided ground against its party in this matter. It says: "The South must be reconstructed, if at all, by its natural leaders—the men of brains, character and influence—most of whom, of course, were in the late war. This is sound policy. This opinion is held by hundreds of unprejudiced people—old army officers and citizens—who lived and owned plantations in the South, or have traveled there. The present state of things is very bad. We have been trying to create an unnatural state of affairs, and the result is a failure, so long as the only intelligent men are disfranchised, and the ignorant and vicious are permitted to control matters. All accounts agree that the hostility is not felt towards the National government but towards certain obnoxious black and white people. Now, it is certainly too much to expect a very active public sentiment against the Ku-Klux, if nothing better is promised than the grotesque travesties of governments which we have seen in many of these States. Let us try a new remedy, and give brains and character, and decency a chance. First of all let us stop this Congressional fooling with great communities as if they were babes or idiots. By attempting to subject whole States to the control of ignorant blacks and whites who are both ignorant and vicious, we invite the very outrages of which we complain. The country is sick of the whole thing."

COUNTY AND TOWN OFFICIAL PAPER.

WOODLAND, CAL:
Saturday, June 10th, 1871.

LIBERAL.—The Episcopal Board of Missions have appropriated $500 toward the support of a clergyman for Suisun.

CELEBRATION.—San Francisco is making preparations to celebrate the Fourth of July. Gen. John B. Ellis has been elected as Grand Marshal.

ANOTHER BRANCH The California Pacific Railroad Company will build a railroad from Petaluma to Napa and Vallejo Junction forthwith.

REGISTER.—Every Democrat should see to it that his own name and that of any new comer is properly upon the great register. Some Democrat in each precinct should be selected to see to this duty especially.

TO BE HANGED.—Mrs. Fair has been sentenced to be hanged sometime next month. Efforts are being made to procure a new trial, but thus far they have failed. Possibly it may be granted by the Supreme Court.

EASTERN AGENTS.—The San Francisco *Spirit of the Times* has an editorial on the evils of taking advertisements through the Eastern Advertising Agents. It is a most despicable system, and the less of it publishers do on this coast the better they will be off in the long run. Some time ago we advocated a Publishers' Convention, to regulate this and other evils, but so much cold water was thrown upon the idea that we concluded we could stand it if others could, and so let the matter drop. But it is still a crying evil.

NOT SO.—The Marysville *Standard* of Thursday last says: "The Trustees of the Christian College of Woodland talk of moving it to Santa Rosa." We are authorized to say that "the Trustees of the Christian College of Woodland talk of" no such thing. On the contrary, it is expected Hesperian College will ere long be handsomely endowed by the Christian Church of California (that is, if such a step be taken at all by the Church, as has been talked of). This rumor has probably arisen from an article which appeared in the Sonoma *Democrat* of May 20th, to which, and our college, we have referred more at length elsewhere.

INEQUALITY OF TAXATION.—The *Union* refers to and comments fairly upon a communication in the *Examiner*, showing that the property of a farmer in San Mateo, owning 120 acres, was assessed up to 50 per cent. of its value, while that of another who owned several thousand acres was not assessed at over one-tenth its value. So it goes all over the State. The rich are but lightly taxed, while the comparatively poor have to bear the burden of supporting government; and at the same time, the abused class could elect honest Assessors if they would. We trust the State Board of Equalization will bring about a change in this respect. They have the power, and it will be expected of them.

A MURDERER SHOT AND HIS BODY BURNED.—On our first page will be found an account of the most heartless and cold-blooded murder we have ever been called upon to record. The fiend in human shape having murdered his innocent and unsuspecting victim and then made his escape, the country was scoured by the angered people until the heartless villain was discovered on Sunday night crossing Feather river. He was taken alive and disarmed after which he attempted to commit suicide but was prevented, when he again attempted to escape and was shot dead. The murdered victim of this foul villain was beloved by all, and after his capture the enraged populace dragged his body to his cabin and both were burned.

FOR HAIGHT.—Placer elected upwards of ninety delegates to the County Convention, *every one* of them for Haight for Governor. The Napa, San Bernardino, Santa Barbara and San Diego delegates are the same way, and the Monterey *Democrat* says that county will be five to one for Haight, and nine out of ten anti-subsidy. So they roll up for our honest, capable, incorruptible State Executive. There are many other counties from which we shall hear the same result. Everything looks favorable for Haight's renomination almost unanimously. And what wonder. With him at the head of our State ticket we once routed the cohorts of Radicalism, and he is more popular with the masses than ever, because he has been tried and has satisfied the people.

SOUND DOCTRINE.—In noticing some out-croppings of Know-Nothingism in a recent editorial of the San Jose *Mercury*, Judge Murphy, of the Gilroy *Advocate*, says: "We are opposed to Democratic Conventions, or Republican Conventions nominating men for position, simply because of their birth place. It should be enough to know that they wear the badge of American citizenship. When they are clothed with this title they are Americans to all intents and purposes, and the only points that should be further inquired into, is their honesty and capability." That is the idea exactly. That expresses the Democratic idea as opposed to that of the Radicals and Know-Nothings, towards foreign-born citizens. Very many of America's best citizens are men of foreign birth. The Democratic party is the only one which has by its words and actions said to foreigners—a man's a man for a' that.

THE PRIMARIES.

Primaries will be held in all the precincts of the county to-day, to elect Delegates to the County Convention to be held on Saturday next, June 17th. The canvass during the past few days has been unusually warm between the different aspirants for the various county offices. The right to aspire to office belongs to every voter, and in a county like Yolo, where a nomination is looked upon as equivalent to an election, it is not strange that there should be more than one candidate for several of the different county offices. Of course this is proper and right, provided that every candidate shall submit cheerfully to the will of the Convention, and do what he can for the success of the ticket after it is made, *whether his name be upon it or not*. Doubtless every aspirant to office in the Democratic party of Yolo county expects to adopt this course. Such certainly should be the case—such the course of everyone. Gentlemen, work like beavers, if you will, beforehand—but as you value the principles of Democracy, as you hope now for the success of our ticket, do nothing hereafter that will tend to weaken it by division, or, what is almost as bad, ill will or apathy. To be successful we must be harmonious and united. "Forwarned is forearmed." No good Democrat will take exceptions, we opine, to the course suggested; we warn every Democrat beforehand who desires the success of the Democratic ticket next Fall to countenance no irregularities. Send the best men in the party as delegates to the Convention, and they will nominate men for the various county offices who will be good and competent men, the choice, through their delegates, of a majority of our party in the county, and for whom we should vote in solid phalanx to the last man.

Kuklux at Washington.

The latest reports of the doings of the Kuklux comes from the Black Republican or negro city of Washington, in the District of Columbia, the Capital of the United States of America, "the land of the free and the home of the brave." The negroes are now on a strike and cry out for *blood!* Below is what the telegraph says of the matter:

WASHINGTON, June 7.—The negro laborers' strike assumed a new and formidable phase yesterday, which resulted in the Governor and other officers of the Territorial Government making a complete surrender to the mob and abandoning the work on the streets which was under contract. This was done under the pretense of avoiding a riot. Though the police had very generally protected the white workmen and arrested a half dozen ringleaders who interfered with them, that the riots were premeditated was shown by the inflamatory speeches made at a mass meeting. One of the ringleaders, named Marcellus West, negro, opened the ball with an inflamatory speech against the contractors, and then came to denunciations of the Board of Public Works and the wealthy classes in general. He said that Governor Cooke had told the Committee that the laborers should be taken off. He advised the crowd to go home and organize Labor Unions and let every Union elect a committee of three to work in a General Convention and adopt such resolutions and rules as will make contractors as well as officials know and respect the laborers' rights. Go home, he said, and if you find any of the contractors *take their heads off their shoulders*. If the contractors will not pay laborers the prices agreed upon, we will have their blood; let the workingmen's motto be blood. They have been working long enough. The Board of Public Works have all power and have got the inside track of the government in giving out of the work; if they refuse to do what is right, blood for blood! Now, go home to your Districts, organize your Associations, choose your Committees, and see if this combination cannot be broken up. Strike terror to the hearts of the contractors. Keep this thing moving. A bigger fraud than Albert Gleason never lived. He couldn't afford to pay laborers more than $1.25 per day, because he supported 2 or 3 fast teams to ride about with. He is a dirty sneaking Yankee contractor. He is down on all niggers and worse than our old masters. These Yankees will skin you alive. Look out for them! The speaker said he never got a cent out of the Republican party. The Democrats, he said, were not to blame, for they had obtained none of the local offices filled.

We will venture "the cigars" that not a radical paper in California will say one word in condemnation of the threats of the black scoundrel who attempts to inflame the strikers against their employers.

ANOTHER APPLICANT.—The Omaha *Herald* says: "Three buffaloes have reached this city from the West. They are consigned to U. S. Grant, St. Louis, and will be placed on the President's farm near that city." The donor will surely be rewarded by some nice appointment or other. The chief Executive of this great nation cares so much more for his own personal gain than for the good of his country that any "loyal" scalawag can buy an office, the value of which, to the applicant, is in proportion to the amount donated to his highness, the so-called President of these United States. So many instances of this kind are known to have occurred that they are nothing new. Give us a Democratic President, and men will not be chosen for positions within the gift of the President because of valuable presents or that they are relatives of that functionary.

THE OTHER SIDE.—The fight on the Republican side for the gubernatorial nomination is becoming very interesting. A few weeks ago Booth seemed to be ahead in the race, but now Selby has got warmed up and bids fair to come out ahead. Booth passed the first quarter several lengths ahead of all competitors; at the second post we found Selby neck-and-neck with him; at the third quarter it is nip-and-tuck between them, and as they enter upon the home stretch it is impossible to determine which nag will win when they reach the end of their course at the State Convention on the 28th instant. If there were any chance for either to become Governor we would prefer Booth, but as he could be beaten more easily, we hope Selby will be nominated.

NEW HAMPSHIRE.—On Thursday, Wm. H. Gove, Democratic and Labor Reform candidate, was elected Speaker of the House in the New Hampshire Legislature.

CONNECTICUT KU-KLUX.—Says the *Crisis:* "The most despicable manifestation of the Ku-Klux spirit discovered in this country recently is that unclean trick whereby the Abolition Ku-Klux of Connecticut swindled Governor English out of his office of Governor, to which he was clearly and fairly re-elected. The evidence shows that about two hundred Connecticut Yankees, lineal descendants of the blue-law witch-burners, committed felony and perjury in order to ingratiate themselves with better men, and that these criminals were supported in their crime by accomplices in the Legislature, who aggravated the perjury of the smaller rogues by piling on official oaths of the most solemn and imperious character. This Connecticut Ku-Klux, headed by a vulgar demagogue named Jewell, deserves the attention of the Congressional Committee, as a more flagrant outrage upon public decency and political morality has never been committed in this country. It is sheer folly to go South in search of Ku-Klux bugaboos when such an infamous fraud can be palmed off upon the enlightened people of New England, who snicker in their sleeves at the success of a swindle which should consign its perpetrators to the prison. Gov. English can afford to await the natural result of such offences against law, as he has the quality of endurance deeply imbued in him; but it would have been more satisfactory to outsiders if he had arraigned, tried and condemned the vile clique of his persecutors under the laws of his State which make penal offences of fraudulent voting, perjury and theft.

NEW ORLEANS FLOODED.—A short time ago we published an account of a crevasse in the bank of the Mississippi river above New Orleans. The whole country for miles has been flooded in consequence and a large portion of the city also. A telegram dated New Orleans June 6th, says of the situation at that time:

The water in the lake and canals is receeding slowly. The water in the city has receeded an inch. People in the overflowed districts have suffered much, and collections are being taken for their relief. Two thousand five hundred houses have their ground floors under water and more than that number of families are homeless and desolate. A canal [illegible] are heart of the city to [illegible] runs from the There is always a [illegible] Lake Pontchartrain, twelve feet [illegible] navigable channel ten or [illegible] deep, and the river steamers [illegible] pass and repass. The damage done by the flood is estimated at $500,000,000.

AN ACT

To provide for the payment of the funded indebtedness of the State of California, and to contract a funded debt for that purpose.

[Approved, April 2, 1870.]

THE PEOPLE OF THE STATE OF CALIFORNIA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. For the purpose of liquidating and providing for the payment of the funded indebtedness of the State of California hereinafter specified, and to lessen the burden of taxation, the Governor of the State, the Controller of State and the Treasurer of State, and their successors in office, shall constitute a Board of Commissioners, to be styled the Loan Commissioners of the State of California, and shall have and exercise the powers and perform the duties hereinafter provided.

Sec. 2. The said Loan Commissioners are hereby authorized to issue and sell not exceeding three millions seven hundred thousand dollars of the bonds of said State, bearing interest at the rate of six per cent. per annum, which interest shall be payable semi-annually, in gold coin, on the second days in January and July in each year, at the office of the Treasurer of State. The principal of said bonds shall be made payable in gold coin within twenty years after the date of their issue, and shall be of such denominations as the said Loan Commissioners shall direct, but not less than five hundred dollars; shall bear the date of their issue, and shall be signed by the said Loan Commissioners, and shall have the seal of the State affixed thereto; and the faith of the State of California is hereby pledged for the payment of said bonds and the interest accruing thereon as herein provided.

Sec. 3. Coupons for the interest shall be attached to each bond so that they may be removed without injury or mutilation to the bond; said coupons, consecutively numbered, shall be signed by the Treasurer of the State.

Sec. 4. Before the sale of any of said bonds the said Loan Commissioners shall cause notices of such sale to be published, for the space of one month in three daily newspapers published in English, one in the City of New York, one in the City of London, in England, and one in the Capital of the State; in and for the space of one month in a daily newspaper published in French, in the City of Paris, in France, and for the space of one month in a daily newspaper published in German, in the City of Frankfort-on-the-Main, in Germany. Such notice shall specify the amount of bonds to be sold, the rate of interest they shall bear, the day and hour of sale, which shall be at the State Capital, and that sealed proposals will be received by the said Loan Commissioners for the purchase of such bonds. Within one month from the expiration of such publication, and on the day and hour named in said notice, the said Loan Commissioners shall open all sealed proposals received by them, and shall award the purchase of said bonds to such bidders as will, in their opinion, make the most advantageous bid for the State; *provided*, that said Loan Commissioners may reject any or all bids, if they deem it to the advantage of the State; and *provided* further, that they may refuse to make any award unless sufficient security shall be furnished by the bidders for the compliance with the terms of their bids; and *provided* further that said bonds shall not be sold at less than ninety-one cents on the dollar, in gold coin, par value.

Sec. 5. It shall be the duty of the Treasurer and Controller of State each to keep a separate record of all bonds sold under the provisions of this Act, showing the number, date, amount and rate of interest of each bond, and to whom the same was issued.

Sec. 6. The sum of one thousand dollars is hereby appropriated out of the General Fund for the payment of the expense that may be incurred by the Loan Commissioners in having such bonds prepared and said notices published.

Sec. 7. The proceeds of such bonds shall be paid into the State Treasury and shall be applied to the payment of the following bonds, in the order of their issuance:

First—The outstanding bonds issued under the Act entitled an Act to provide for certain equitable claims against the State of California, and to contract a funded debt for that purpose, approved April twenty-eight eighteen hundred and fifty-seven.

Second—The outstanding bonds issued under the Act of eighteen hundred and sixty.

Third—the outstanding soldiers' relief bonds.

Fourth—The outstanding soldiers' bounty bonds.

Sec. 8. All persons having any of the bonds specified in section seven of this Act shall, upon presentation of such bonds to the said Loan Commissioners, be entitled to exchange them at their par value for bonds authorized to be issued under this Act, at the rate of ninety-three cents on the dollar, par value, but no bond shall be issued for a less sum than five hundred dollars, nor for a fractional part of a hundred dollars, but the said Loan Commissioners may issue certificates of such fractional parts not bonded, which said certificate shall be transferable and entitled to be paid out of the proceeds of the sales of any bonds provided for in section seven of this Act. The Loan Commissioners shall cancel each bond so exchanged, and shall indorse on such bond the date on which they received the same, and from whom, the number and amount of the bond issued in exchange therefor, and shall file such bond in the office of the Secretary of State.

Sec. 9. Whenever there shall be in the State Treasury, from the proceeds of the sale of bonds issued under this Act, a sum of ten thousand dollars or more, it shall be the duty of the Treasurer to advertise in two newspapers, printed in English, one in New York and one in the Capital of the State, for two months, which advertisement shall state the amount of money in the treasury applicable to the redemption of bonds, and the number of bonds, numbering therein the order of their issuance, which are redeemable; and three months from the date of the expiration of such advertisement, such bonds, unless sooner paid, shall cease to draw interest, but the money for the redemption of such bonds shall remain in the treasury to pay such bonds whenever presented.

Sec. 10. For the payment within twenty years of the principal and interest of the bonds issued under this Act, there shall be and is hereby levied annually, *after* the bonds have been issued under this Act, such rate of tax on each one hundred dollars of the assessed value of real and personal property in the State, to be computed by the Controller of State on the basis of the assessed value of such property for the preceding year, as shall produce annually, for the first five years, seven per centum of the amount of such bonds issued; for the next ten years thereafter, twelve per centum of the amount of such bonds issued, and thereafter, until all the bonds issued under this Act are paid, fifteen per centum of the amount of such bonds issued. The Controller shall certify the rate of tax thus computed by him to the several County Auditors, and the said Auditors are hereby directed and required to enter such rate on the assessment rolls of their respective counties, in the same manner and with the same effect as is provided by law in relation to other State taxes. Every tax levied under the provisions or authority of this Act is hereby made a lien against the property assessed, which lien shall attach on the first Monday in March in each year, and shall not be satisfied or removed until such tax has been paid. All moneys derived from taxes authorized by the provisions of this section shall be paid into the State treasury, and shall be applied—

First—To the payment of the interest on the bonds issued by the provisions of this Act.

Second—To the payment of the principal of such bonds.

Provided, that all moneys remaining in the State treasury on the third day of January, in each year, for the first five years after the issuance of any bonds under this Act, after all the interest on such bonds then due has been paid, shall be transferred by the Treasurer of State to the General Fund.

Sec. 11. Whenever, on the third day of January or July, in any year, after the expiration of five years from the date of issuance of any bonds under this Act, there remains, after the payment of the interest, as provided in the preceeding section, a surplus of ten thousand dollars or more, it shall be the duty of the Treasurer to advertise, for the space of one month, in one daily newspaper, published in English, in the City of New York, and for one month, in one daily newspaper, published in English, at the State Capital, for sealed proposals, to be opened one month after the expiration of such publication by the Treasurer, in presence of the Governor or Controller, at the State Capitol, for the surrender of bonds issued under this Act, which advertisement shall state the amount of money he has on hand for the purpose of redemption; and they shall accept the lowest proposals, at rates not exceeding par value, as may redeem the greatest amount of bonds, until the amount of cash on hand for the redemption is exausted; *provided*, however, in case a sufficient amount of such bonds shall not be offered, as aforesaid, to exhaust the Sinking Fund to a less amount than ten thousand dollars, then it is hereby made the duty of the Treasurer to advertise in two newspapers, one in New York and one at the Capital of this State, for three months, which advertisement shall state the amount in the Sinking Fund, and the number of bonds, numbering them in the order of their issuance, which such fund is set apart to pay and discharge; and if such bond so numbered in such advertisements shall not be presented for payment and cancellation at the expiration of such publications, then such fund shall remain in the treasury to discharge such bonds whenever presented, but they shall draw no interest after the expiration of such publication; before any of said bonds shall be paid, they shall be presented to the Controller, who shall endorse on each bond the amount due thereon, and shall write across the face of each bond the date of its surrender and the name of the person surrendering.

Sec. 12. The Treasurer of State shall keep a full and particular account and record of all his proceedings under this Act, and of the bonds redeemed and surrendered, and he shall transmit to the Governor an abstract of all his proceedings under this Act, with his annual report, to be by the Governor laid before the Legislature; and all books and papers pertaining to the matter provided for in this Act shall at all times be open to the inspection of any party interested, or the Governor or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both.

Sec. 13. It shall be the duty of the Treasurer to pay the interest on said bonds, when the same falls due, out of said Interest Fund, if sufficient; and if said fund be not sufficient, then to pay the deficiency out of the General Fund; *provided*, that the Controller of State shall first draw his warrant on the Treasurer, payable to the order of said Treasurer, for the amount of interest money about to become due, which said interest warrant shall be drawn at least one month previous to the maturing of the interest.

Sec. 14. This Act shall take effect sixty days after the next general election, as to all its provisions, except those relating to and necessary for its submission to the people, and for returning, canvassing and proclaiming the votes, which shall take effect immediately.

Sec. 15. This Act shall be submitted to the people of the State for their ratification, at the next general election, and the qualified electors of this State shall, at said election, on their ballots for State officers, vote for or against this Act; those voting for the same shall write or have printed on their ballots the words, "Refund the Debt—Yes," and those voting against the same shall write or have printed on their ballots the words, "Refund the Debt—No."

Sec. 16. The votes cast for and against this Act shall be counted, returned and cancelled, and declared in the same manner and subject to the same rules as votes cast for the Treasurer of State, and if it appears that a majority of all the votes so cast for or against this law, as aforesaid, are in favor of this Act, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the Governor shall make proclamation hereof; but if a majority of the votes so cast are against this Act, then the same shall become void.

Sec. 17. It shall be the duty of the Secretary of State to have this Act published in one newspaper in each judicial district of this State, for three months next preceding the next general election, for which publication no greater allowance shall be made than the rates allowed by law to the State Printer. je3

College Endowment.

In the Sonoma *Democrat* of May 20th, we find the following:

"ANOTHER COLLEGE FOR SANTA ROSA.—We learn that it is the intention of the Christian Church in California to build and endow a new College at an early day; and also hear with pleasure that Santa Rosa is very favorably regarded by many of the leading men as an eligible location for the new institution. The College will be located, however, after the manner of the Odd Fellows' College, at the place offering the best terms and most substantial inducements. Therefore, if Santa Rosa would secure this educational prize, her citizens must exhibit some life and liberality in this matter," etc.

The author of the above should be aware that the Christian Church already has a fine College in this place "Hesperian College," which was built in the year 1860, and opened as a College in 1861, since which time it has flourished remarkably, for the last five years, under the superintendence of Professor J. M. Martin, aided by a full corps of competent professors and teachers for all the departments of an institution of its class. The Church is stronger in numbers here, as it doubtless is in wealth, than at any other point in the State. There are not, in California, we are reliably informed, to exceed 2,000 members; the Church at Woodland has 300 of them. Now, if a College is about to be endowed by the Christian denomination of California, it would naturally be the one already built, and in successful, we may say flourishing operation. The number of students attending Heaperian College last year was about 150, and in more prosperous seasons has reached 175 or 180. The building is an elegant and spacious structure, of brick, three stories, with rooms well arranged, and occupies a handsome site in the heart of the town, with several acres of ground studded over with natural oaks. Woodland is as central and as eligible as any point in the State, next to Sacramento, from which city it is only twenty miles, on the California Pacific Railroad to Marysville. In point of healthfulness and climate it is not surpassed in the State. The town is prosperous and enterprising. It has lately been incorporated, has gas works established, with water works and other improvements under way.

Of course we are not surprised that the Sonoma *Democrat* should wish to have another College located at Santa Rosa, and especially if it is to be "built and endowed by the Christian Church;" but we submit in view of the above facts, that our town and Hesperian College has a prior claim to the said endowment, which will doubtless come in due time. Besides, the colleges already located in Sonoma county—the one at Sonoma City under the auspices of the Cumberland Presbyterians, and the Pacific Methodist College at Santa Rosa—are each but experiments as yet, and the former, we learn, has for some time been languishing for want of patronage. The latter, we trust, will be better sustained. But as to the endowment of a College by the Christians, we set it down as a foregone conclusion that Hesperian College will be the recipient of that whenever it is conferred, and whatever may be necessary to secure it, in the way of competition, not only the church here but the community at large will cheerfully do.

LIBRARY BOOKS.—Superintendent Darby informs us that books for the various School District Libraries are now ready at Woodland and can be had on application, as follows: Eureka, Moultor, Yolo, Pleasant Prairie, Monument, Cache Creek, Clover, Washington, Fairview, Cottonwood, Plainfield, Union, Mount Pleasant, Willow Slough, Spring Lake, Liberty, Lisbon, Merritt, Enterprise, Pine Grove, North Grafton, Woodland, Capay, Putah, Grand Island, Franklin, Buchanan, Fairfield, Sacramento River, Buckeye, Filmore, Prairie, Canyon, Gordon, Grafton.

EAST END GROCERY.—We call attention to the new advertisement of Stamp & Driggens, Masonic Hall building, who keep on hand a full assortment of all kinds of family groceries, fruits, vegetables, etc., sell them at reasonable rates and deliver them to customers in any part of town free of charge.

PIONEER BLIND TROUPE.—As announced last week, this troupe entertained our citizens on Saturday and Monday evenings, performing to good audiences. To say they are fine musicians is not sufficient, for they are above the average. Miss Moran sings with exquisite taste, mastering her voice perfectly, which is full, strong, and of great compass. She is a graduate of the Boston Blind Institute. During the performance the audience were shown with what facility the blind can read by the aid of books expressly prepared for them. Miss Moran turned readily to chapter and verse of the Bible, named by a person in the audience, and read fluently and correctly. The spirit manifested as she sung "I'm the jolliest girl that's out," shows that a blind person can feel as jolly as any of us. Our townsman, J. M. Wood, one of the troupe, is too well known here to need commendation—he is always thorough. And Messrs. Smith, Walker and Fuller performed their parts admirably. We trust they will, as they deserve, be greeted by full houses wherever they go.

WOODLAND SCHOOL HOUSE.—According to notice, the Trustees met and opened bids for construction of the new school house, and took said bids under advisement till June 7th, when the contract for the brick work, according to specifications, was let to L. F. Craft for the sum of $3,649. Other bids, taking the lowest, amounted to $10,414, all of which were rejected. The Board concluded to purchase material and do the work necessary to get the walls up to the plates, by engaging carpenters by the day, and ordered that Giles E. Sill should superintend the work. The Trustees will hereafter take action in regard to the other portions of the work. We learn that it is feared the assessment made is not likely to realize the amount of $7,000 ordered by the District. The Trustees give notice that they will meet as a Board of Equalization on the special assessment for building purposes on the 14th, 15th and 16th insts., at the Court House in Woodland.

CENTRAL HALL.—This fine hall is just completed. It was lit up on Thursday evening with fourteen gas jets, which gave it an exceedingly brilliant appearance. The hall is 36 by 75 feet in the clear, with a gallery the whole width of the entrance end. It will seat comfortably 500 persons. The seats—movable settees—have been ordered, and will be here in a day or two. We understand the Congregationalists will use the new hall hereafter for their services, and have purchased an organ for the use of the choir.

THE VALLEJO EXCURSION.—On Thursday last a large number of people enjoyed an excursion gotten up by the Christian Church, to Vallejo and Mare Island. The day was pleasant and the excurtionists enjoyed themselves inspecting the arsenals, ship yards, men-of-war, etc., and returned highly pleased with the trip. The point was well chosen, as the distance is about right, and the cool breezes of the bay at this season of the year are very refreshing.

OMAHA LEGAL ENTERPRISE.—This popular enterprise still goes on; here is a chance to win a fortune—June 30th. Who wants that $30,000 or a chance to get that $15,000, or the $10,000, $5,000, $3,000, $2,000, or any of the $1,000 gifts. "Better to be born lucky than rich," is an old maxim, and the way to try your luck is to send $3 to the Mutual Aid Association of Omaha, Nebraska, and buy a ticket. For full particulars see advertisement.

$25,000 IN GOLD COIN!.—Who takes it? Speak quick, for the tickets of the Cosmopolitan Benevolent Society of Nevada City are selling with a rush. By investing $2,50 some lucky individual will recieve a fortune; and as there are several other prizes of $15,000, $10,000, $5,000, $4,000, $3,000, $2,000, and several others, we advise every family to purchase a ticket and get rich. We go in—sure.

WATER WORKS.—The Company is pushing ahead with its works to supply our people with good soft water which the deep well sunk furnishes in abundance. In a month or six weeks the water will be let into the pipes and all can have good water who wish.

FOURTH OF JULY MEETING.—Posters are out announcing a meeting of citizens at Washington Hall on Tuesday evening next, to make arrangements for celebrating the approaching National holiday. We hope there will be a full attendance at the meeting.

COUNTY HOSPITAL.—The County Physician's Report for the month of May shows that nine patients were treated during the month; five were admitted, seven discharged, two died, and two now under treatment.

EPISCOPAL SERVICES.—Rev. Wm. H. Hill, of Sacramento, will preach at the Woodland Methodist Church, on Sunday, June 11th (tomorrow), at 8 P. M.

HARVESTING.—Some of the farmers in this vicinity have harvested their wheat crops, and in most cases it turned out better than was expected.

For the very best Photographs, go to BRADLEY & RULOFSON, No. 429 Montgomery Street, San Francisco. ☞Closed on Sundays.☜

BORN.

PASTURAGE.

INQUIRE OF

C. H. GRAY.

Woodland, May 18th, 1871. my20-tf

INSANE BOY.—The Sonoma *Democrat* of the 27th ult. says:

A little boy by the name of John Rupely, aged 12 years, was brought up here from Petaluma on Sunday last to be examined on a charge of insanity. The physicans here pronounced him insane, and the unfortunate little fellow was taken to Stocton by Theodore Metzler. The number of persons being sent from this county to the asylum is alarming.

SPECIAL NOTICES.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of WISTAR'S BALSAM OF WILD CHERRY as a safe, efficient and reliable remedy in curing coughs, colds and pulmonary disease. Many of the cures are truly wonderful.

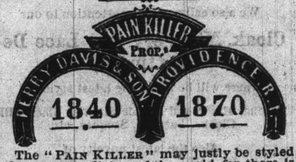

☞The worst Coughs yield, as if by magic, to the wonderful curative powers of Dr. Pierce's Alt. Ext. or Golden Medical Discovery. It also surpasses anything else ever before discovered for the cure of pimples, blotches and rashes on the face; also, for erysipelas, salt rheum, and all skin and scrofulous diseases. Sold by druggists.

DON'T DESPAIR BECAUSE YOU HAVE A WEAK CONSTITUTION. The vitalizing principle embodied in DR. WALKER'S VINEGAR BITTERS will assuredly strengthen it. In every drop of that combination of vegetable curatives, there is a stimulating, a regenerating, a regulating power unequaled in the whole range of proprietary and officinal remedies. It is to the inert physique what steam and oil are to the locomotive engine. Yet it contains no fiery excitant, nothing but the juices of rare medicinal herbs and roots, intended by the Great Physician for "the healing of the Nations."

A Chapter of Facts.

Space is valuable in a newspaper, and it is therefore proposed in this advertisement to condense a variety of facts, important to the public into a small compass. Those facts refer to Hostetter's Stomach Bitters—what that celebrated medicine is, and what it will do. In the first place, then, the article is a stimulant, tonic and alterative, consisting of a combination of an absolutely pure spirituous agent with the most valuable medicinal vegetable substances that Botanic research has placed at the disposal of the chemist and the physician. These ingredients are compounded with great care, and in such proportions as to produce a preparation which invigorates without exciting the general system, and tones, regulates and controls the stomach, the bowels, the liver, and the minor secretive organs.

What this great restorative will do must be gathered from what it has done. The case of dyspepsia, or any other form of indigestion, in which it has been persistently administered without effecting a radical cure, is yet to be heard from, and the same may be said of bilious disorders, intermittent fever, nervous affections, general debility, constipation, sick headache, mental disabilities to which the feeble are so subject. It purifies all the fluids of the body, including the blood, and the gentle stimulous which it imparts to the nervous system is not succeeded by the slightest reaction. This is a chapter of facts which readers, for their own sakes, should mark and remember.

The "PAIN KILLER" may justly be styled the great medicine of the world, for there is no region of the globe into which it has not found its way, and been largely used and highly prized. Moreover, there is no clime to which it has not proved to be well adapted for the cure of a considerable variety of diseases; it is a speedy and safe remedy for burns, scalds, cuts, bruises, wounds and various other injuries, as well as for dysentery, diarrhœa and bowel complaints generally, it is admirably suited for every race of men on the globe.

It is a very significant fact, that notwithstanding the long period of years that the "Pain Killer" has been before the world, it has never lost one whit of its popularity, but, on the contrary, the call for it has steadily increased, from its first discovery, and at no previous time has the demand for it been so great, or the quantity made been so large, as it is to-day.

Another significant fact is, that nowhere has the Pain Killer ever been in higher repute, or been more generally used by families and individuals, than it has been here at home, where it was first discovered and introduced. That the Pain Killer will continue to be, what we have styled it, the great medicine of the world, there cannot be the shadow of a doubt.—[Providence Advertiser.

"First—One-half mile in one minute and seven seconds.

"Second — Another and separate half mile in one minute and seven and one-half seconds.

"Now I have two horses in my stable that have trotted half a mile in one minute and six seconds, and one horse, Dexter, that has trotted half a mile in public in one minute and five seconds. Dexter has trotted half a mile to a road wagon in one minute six and a half seconds. So you see if the California "wonder" is to throw dust in my eyes, as the article which you copy suggests, it can only be from present appearances, when the wind is from behind."

CURE FOR CANCER.—An exchange says the following cure for cancer has been carefully tested and proved successful: A piece of sticking plaster was placed round the cancer (a little larger than the cancer), so that the cancer and a small circular of the healthy skin next to it was exposed; then a plaster made of chloride of zinc, blood root and wheat flour and water, was spread on a piece of muslin the size of this circular opening, and applied to the cancer for twenty-four hours. On removing it the cancer will be found to be burned into, and appear of the color and hardness of an old shoe sole, and the circular rim outside of it will look white and parboiled, as if scalded by hot steam. The wound is now dressed and the outside rim soon separates, and the cancer comes out in a hard lump, and the place heals up. The plaster kills the cancer and it sloughs out like dead flesh, and never grows again.

STEEL RAILS.—It is claimed that a Bessemer steel rail will outlast a dozen iron ones, and this not, as is commonly supposed because, the steel is so much harder than the iron, but for the reason that it is entirely free from the laminated or fibrous character common to all iron or steel, which becomes mechanically mixed with a portion of slag or scoria during the operation of refining. In the Bessemer process, atmospheric air is forced in numerous gets or streams into the mass of molten pig iron, as much as five tons of iron being frequently operated upon at once. The oxygen of the air not only removes the carbon from the iron by combining therewith, and thus converts it into steel, but the intense heat keeps the steel perfectly fluid. The steel, in this state of fusion, may be readily run into molds, where it cools and forms a homogeneous mass, without admixture of scoria or other impurities—hence the superior texture, hardness, and durability of steel rails.

This is the time to use good blood-renewing, purifying, and invigorating medicines.

HELMBOLD'S FLUID EXTRACT SARSAPARILLA

AND

HELMBOLD'S

FLUID EXTRACT

Grape-Juice Pills

ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup or decoction as made by druggists; and a wine-glass added to a pint of water equals the celebrated Lisbon Diet Drink—a delightful and healthful beverage.

The Grape-Juice Pill is composed of Fluid Extract of Catawba Grape-Juice and

FLUID EXTRACT RHUBARB.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salts, magnesia, etc.

Helmbold's Grape-Juice Pill

Is not a patented pill, put up as those ordinarily vended, but the result of TEN YEARS' experimenting and

GREAT CARE IN PREPARATION.

SAFE FOR AND TAKEN BY CHILDREN.

No Nausea; no Griping Pains, but mild, pleasant, and safe in operation.

Two bottles of the extract of

SARSAPARILLA

And one bottle of the

GRAPE-JUICE PILLS

Are worth their weight in gold to those suffering from

Bad Blood,
Poor Complexion,
Headache,
Nervousness,
Wakefulness at Night,
Costiveness,
And Irregularities,

And to those suffering from broken and delicate Constitutions, it will give new blood, new vigor, and new life.

The Catawba Grape Pills,

Are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes, and carelessly prepared by inexperienced men, comparing with the English and French style of manufacturing.

FOR SALE.

OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes, and expressing our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to state that in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and countries far beyond, we are necessitated to devote our entire time to said business.

We are the Oldest Drug Firm on the Pacific Coast, and the only one continuous under the same proprietors since 1849, and have determined to sell our large, prosperous, and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

The Great Medical Discovery!

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION.

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, WORMS and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

TO THE UNFORTUNATE.

NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY,

No. 632 Kearney Street, corner Commercial, San Francisco, established in 1858, for the treatment of Sexual and Seminal Diseases, Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcered Legs, etc., successfully treated.

DR. GIBBON

Has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his Dispensary, 632 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness

Produces with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, fœted breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cure at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By inclosing $10 in coin, in a registered letter, through the Post Office or through Wells, Fargo & Co.

A package of medicine will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.
